

Supplement to Shorelines.

Executive

At the May meeting the executive identified several items should have been included in the previous issue of Shorelines but unfortunately were excluded. So this is an addendum to the members' newsletter.

Cloakroom

Members please remove any personal effects from the cloakroom at the north doorway to the parking lot before the end of the May. There are plans afoot to clean up this area. Any items that are deemed abandoned or unnecessary will be removed and recycled or put in the garbage

Smoking

At the request of non-smokers members, would members **please refrain from smoking** within the clubhouse roofed enclosed porch areas on the ground floor and on the balcony of the Wheelhouse upstairs. There are new cigarette butt containers on the patio, please use them and not the gardens.

It is hope the all members will take a respectful and reasonable attitude to the smoking issue without the further action of resorting to the eyesore of signage posted in the areas.

Yard Clean Up

Members who have ladders, winter framework, or any other items chained and padlocked to the perimeter fencing remove these articles to the **newly provided storage location at the back of the boat cradle storage frames**. It is essential that we do not have materials lying around the yard.

We have a cleanup project planned for students who will be employed this spring and summer removing debris from the yard.

Unauthorized Trailers.

A reminder to members that storage of trailers in the yard, other than your winter boat storage trailer **is not permitted without the board of directors' approval**. Application should be made to the property manager requesting permission for a limited time period.

Sweep- Up- Project- Tuesday June 2nd Father John Redmond Catholic High School

Students from the Father John Redmond Catholic High School, just north of the club, submitted a request to use the LSYC patio area as a lunch and assembly point for a planned clean up of the landfill park area. This event includes the Waterfront Trail that runs along in front of our club, the beaches and the spit. It falls within our lease agreement with the city that we make the LSYC property available to the general good of the public; it was thought that this would be a good fit for all concerned. Permission was granted with a few common sense conditions in place from our executive for the students using our facilities, adult supervision in place for the complete time the students will be

on our grounds and a limit of the number of students on the patio and grounds at any given time.

The executive agreed to donate the hot dogs and cookies for the lunch as our further support of this community event. This will take place Tuesday 2nd of June during the day time and should not have a great deal of an impact on the members

Sail Past

Please mark your calendars Sail Past this year will be held on the 13th of June. We encourage all new members to come out and participate in our traditional start to the sailing season. This is a wonderful means of getting to know others at the club. If you have any questions about Sail Past and what it entails ask one of the executive or contact me personally

Once again a safe and enjoyable season to all members
